Hold the Date!

Simply Celebrating

A casual evening celebrating the Adler Aphasia Center

Thursday, September 24, 2009

Adler Aphasia Center - Maywood, NJ

Event Co-Chairs

Robin Straus & Jodi Epstein

Journal Co-Chairs

Bernie Koster, David & Amy Albalah

Aphasia is a language disorder. It affects a person's ability to communicate but does not affect his or her intellect. It occurs most often from a stroke, brain injury or tumor. The disorder impairs the expression and understanding of language, as well as reading and writing. The frustrating condition often makes it difficult for the person to speak and be understood by others.
